115 Grounds Passed On

By prolonged discussions and disputes upon every detail, neither side conceding anything to the other, the state and the defense at 1 o'clock on Wednesday afternoon had progressed with the hearing of Lo M. Frank's motion for a new trial, to the third ground of the 115 cited in that motion. Less than four hours, from 3:20 a. m. until 1 p. m., had been expended upon twelve of those grounds, and the thir-

Two Men Fined for Alleged Threats-Strikers Meet and Parade

Three striking operatives of the Pullman Bag and Cotton mills were arraigned in police court Wednesday morning on charges of disorderly conduct. There was a large crowd of operatives in the courtroom.

The doctoring of an "it," enlivened the morning session, but the solicitor persisted deliberately in his splitting of hairs with the defense, declining to concede any point. The result of this was that in one seemingly minor particular or another nearly all of the twelve defendants were found guilty.

Wednesday morning were amended, either by the inclusion of questions and answers, or by the inclusion of a new factor contends the unwarranted conclusions had been placed upon the evidence, and the omission of words and phrases.

R. R. L. Wood and W. E. Fleming were fined \$100 and costs each, it being alleged that they had conspired to defraud the state.

Manager G. A. Johnson said that Fleming had stopped machines to prevent their operation by those who had not paid their money. That was not true, it being alleged that he had threatened to stop the machines if not paid for.

Fleming made an excited speech, in which he said that he had been arrested for no reason.

Several officials of the firm testified that they had no knowledge of the violence and Attorney Verlin Moore, who is a member of the board, was ordered to impose fines upon the men.

Tuesday afternoon a committee of 160 citizens met at the city hall and complained that the police were being intimidated by the demonstrators.

Deputy Sheriff James Brown, who was charged with providing courtroom and noise control, said it saved the lawyers and newsmen from being arrested. The defense will introduce additional testimony to the numerous affidavits that have been filed in support of the character of the citizens. The jury will be selected by Judge Juror Hennrich, who presided at the trial.

Following a visit from four members of the Fulton Bag and Cotton Mills Wednesday morning, Chief of Police Leavars gave instructions that a case be immediately conducted against General Thomas B. Johnson.

CASTLE SOUTHERN AGENT FOR HARLEY-DAVIDSONS

Atlanta Is Made Distributing
Point of Motorcycles for
Eight States

One Castle, whose name has been prominently identified in the bicycle and motor world for over twenty years and who discovered Bobby Walthour, famous cyclist, has been tendered the southern agency of the Harley-Davidson Motor company and expects to open attractive sales rooms at 222 and 224 Peachtree street by November 1.

In the establishment of this branch office of the company here Atlanta is made the distributing point for agencies in this state, Alabama, Tennessee, Mississippi, Louisiana, Florida and the Carolinas. Mr. Castle is to have complete control of the territory with every agency under his personal direction and Atlanta as the headquarters of members of the Harley-Davidson Motor company for the entire south as well as representative for their machines at the present store on Pryor street, and a motorcycle expert.

The company has for some time been looking about for the location of a southern office and finally decided on Atlanta as the most logical distributing point in the south. His connections with them in the past have made him to be a man of sterling business ability and fully equipped to successfully direct the affairs of this southern branch. It is in recognition of his ability as a business man that the well known concern has made him such an attractive offer.

In order to give all of his time and attention to the products of the Harley-Davidson Motor company, Mr. Castle will dispose of his present business some time in the near future. He is already preparing for the opening of his new store and hopes to be ready in time to exhibit his four new models of motorcycles, motor trucks and side cars of the automobile shop. A feature of his models will be a three-wheeled delivery truck, a new product of the company he represents.

Italian Pardoned For Slaying Man To Save Daughter

Artiste Franzoni, an Italian marble worker from the Tate quarries in Pickens county, who is serving a term of ten years for the killing of a man, another worker in the quarries, was pardoned Tuesday afternoon by Governor Slaton. In approving the pardon of the prisoner, the governor followed an opinion formerly expressed by the state's attorney that the man is not a bad man, but that he is a commendable desire to protect his daughter.

The story of the shooting is very interesting. Franzoni came to this country ten or twelve years ago to work in the marble quarries. He was brought with him by the Tate quarries a pretty young girl of the Italian name of beauty. She was the daughter of a number of the Italian colony, fell in love with Franzoni, and she regarded him favorably, but the father not liking her, caught the girl by the arm and called her by an abusive epithet. Franzoni was angered and he drew his gun and began shooting. One of the bullets killed the father and another wounded Franzoni's brother.

Franzoni was arrested and at the same time of course, his brother, Bill, was convicted of manslaughter and was sentenced to ten years in prison. He was sent to Cherokee county to work on the road. He proved a good prisoner and soon became a trusty. He was not long ago, and thereafter applications for pardon were made.

They were visited by great crowds during the day. The visitors included Mayor H. H. Davenport and many of the city aldermen. The wharves are of concrete and they are modern in every particular. It is expected that the "Harris and Milner" Transportation company will be able to handle its business with much greater dispatch now than it has in the past.

ECZEMA ON FACE ITCHED SO SHE COULD NOT SLEEP

Suffering Awful Intolerable and Did Not Do Out Without a Well Known Use of Resinol Brought Relief.

CHICAGO, Ill., June 3, 1913.—"I had a case of eczema on my face. It looked like little red pimples and it itched so I did not get out without scratching a vein. I could scarcely sleep at night, the itching and burning were so intolerable. I had been suffering from this for several weeks, and had tried several salves but with practically no result. I did not know what I should do until after one application of Resinol Soap and Resinol Ointment. After five days I had a good night's sleep. I used Resinol Soap and Resinol Ointment for only about two months and was completely cured."

"My brother was troubled with pimples on his face and Resinol cured him." (Signed) Miss G. Ewald, 253 Cass Ave., Chicago.

There was a meeting of the directors of the Savannah Music club, and it was decided to go ahead and make arrangements for the guarantee of a sufficient sum to bring those entertainers here.

The suits involve in the aggregate \$180,000, which the receivers of the company allege is due to the trust insurance concern by the bank and the individuals named. The first hearing will be held at the January term of Floyd superior court, and will be on demurrer by which attorneys for the defendants will endeavor to have the litigation dismissed.

The Smartest Suits Are Fur-Adorned

And the Last Word in Such Suits Are These New Models

FASHION letters twice weekly, frequent trips to market, first hand connections with New York's cleverest suit makers—it would be odd indeed if Rich's didn't have the smartest and newest suits.

Because fur-adorned suits are the newest, there is an entire section devoted to them. Included are

Broadcloths Brocade Velvets
Duvetynes Matelasses
Failles Raitines
Velvets Cheviots

Some of the suits are simply tailored, their style dependent solely upon simple, graceful lines and the rich fur trimmings. Some suits show a pronounced Russian tendency; some, with their Oriental silk lining and draperies, speak of the far East; some—but description is dumb before their classic drapings and rich colorings and fabrics. You will just have to see them.

Black and all the street shades. Prices start at \$35 and \$39.50 and climb gradually to \$50, \$60, up to \$147.50. (Second Floor.)

A New 6 in. Panne Velvet Girdle

Is a surprise at \$2—because it has a silk back and front, and velvet of that quality is worth \$2 without being made up. Smartly shirred with 3 pairs of velvet or satin frogs and self-covered buttons in black, taupe, Petrol blue, old blue, King's blue, mahogany, purple, plum, black. (Main Floor, Center.)

50c to 60c Shadow Laces at 39c

Adorable shadow lace flouncings in charming patterns for the new blouses and soft drapery trimmings. 12 to 26 inches wide, white and cream. (Main Floor, Right.)

CONGREGATIONALISTS WOULD CHANGE CREED

Members Object to Doctrinal Statement—Meeting in Kansas City.

(By Associated Press.)
KANSAS CITY, Mo., Oct. 22.—The most important conference of Congregationalists in a decade was begun here today when Moderator Nehemiah Boynton, of Brooklyn, called to order the special session of the National Council of Congregational churches in the United States.

The moderator there are four candidates: Rev. William Howard Day, of Los Angeles; Rev. Samuel H. Woodruff, of St. Louis; Rev. Charles R. Brown, dean of Yale divinity school, and Rev. Charles S. Mills, of Montclair, N. J.

TODAY'S SESSION.
Reports of commissions and committees wrapped most of today's session. That of the commission on polity concerning the doctrinal statement was considered the most important. The commission also recommended the cancellation of the number of church societies and the appointment of a national secretary. The statement on doctrine which is objected to by some of the members because of its broadness, follows:

We believe in God the Father, infinite in wisdom, goodness and love; and Jesus Christ, His son, our Lord and savior, who for us and our salvation died and lived again; and the Holy Spirit who takes of the things of Christ and reveals them to us; and we believe in the resurrection of the dead and in the life to come.

We are united in striving to know the will of God as taught in the Holy Scriptures and in our purpose to walk in the ways of the Lord made known to us by His mission of the church of Christ to proclaim the gospel to all mankind, existing in the worship of the one God and laboring for the promotion of the progress of the human race, the triumph of peace and the realization of human brotherhood. Dedicating as did our fathers upon the continent the guidance of the Holy Spirit to lead us into all truth, we work and pay for the transformation of the world into the kingdom of God, and we hold with faith for the triumph of righteousness and for life and glory everlasting. Amen.

\$25,500,000 IS SPENT BY FARMERS ON FERTILIZER

More Used in Season Than Ever Before Except in 1910-11

Approximately \$25,500,000 was expended in Georgia for commercial fertilizers during the period from October 1, 1912, to October 1, 1913. More fertilizers were used in the state during the past season than in any other season of the state's history, except that of 1910-11, which broke all records.

During the season of 1910-11 the state consumed 1,292,722 tons of straight fertilizers and 128,748 tons of cotton seed meal. This last season it used 1,129,092 tons of straight fertilizers and 122,975 tons of cotton seed meal.

At the very conservative estimate of \$24 a ton the farmers invested during the season just closed \$22,415,840 for straight fertilizers. Figured on an average price of \$25 per ton they invested \$22,415,840 for straight fertilizers.

The state collects a tax of ten cents on every ton of fertilizer and cotton seed meal sold in Georgia, and these fees during the past season aggregated \$124,348.

A comprehensive report on the sale, use and analysis of fertilizers used in Georgia has just been issued by the state department of agriculture.

COUNTY NEVER CREATED, THIS PRISONER CONTENTS

Seeks Freedom on the Ground
That Wheeler County Was
Never Legally Created

The state supreme court Wednesday morning heard arguments in the habeas corpus case of Ben Moore vs. J. R. Smith, which involves the validity of the constitutional amendment creating the county of Wheeler.

Ben Moore, the plaintiff, who brought the proceedings in the Baldwin county superior court, is the father of Marshall Moore, a negro, who was convicted of murder in the superior court of Baldwin county and sentenced to life imprisonment.

J. R. Smith, the defendant, is the warden of the state penitentiary at Milledgeville, where Marshall Moore is confined. The habeas corpus, which was brought before Judge J. R. Park, sought the freedom of the prisoner on the ground that Wheeler county, in whose courts he had been tried, was never legally created.

The contention was made that the law required that the vote on a constitutional amendment be taken at the next general election succeeding the passage of the act by the legislature. Owing to the fact that the law also provided for sixty days before the election the Wheeler county amendment was not submitted to the voters of the state in the regular state election of October, 1912, but was submitted at the federal election in the following November.

The point urged by the plaintiff is that the law in specifically stating "general election" referred to the regular state election and that a federal election cannot be so recognized.

Judge Park declined to grant the habeas corpus, whereupon Moore appealed to the supreme court. Should the court sustain his contention Wheeler county will cease to exist.

Moore is represented by Attorneys M. B. Calhoun and W. L. & Warren White, while Smith is represented by Solicitor General W. A. Wooten, of the Baldwin superior court, and Attorneys Fred Graham, W. R. Mann and C. V. Thompson.

It will probably be thirty or sixty days before the supreme court will render a decision in the case.

Young Woman Weeps And Gets Divorce

Miss Mary Oleson Oetter in suit of her husband, Rudolph Oetter secured a decree of divorce. The divorce was granted after the husband had been found guilty of adultery and the wife had been found innocent.

When the case came up for final trial in Judge Pennington's court Wednesday morning, Attorney W. C. Smith made a very eloquent appeal for his client, and she received the decree and the custody of her boy.

Napier, Wright & Cox were attorneys for the husband.

WARMER AND SHOWERS IS OFFICIAL FORECAST

Warmer weather, with showers as an accompaniment, is the weather men's official forecast for Wednesday night and Thursday. The old wad, he says, has passed for the time being, and higher temperatures are expected for the next few days. The weather, however, will not be uncomfortable, warm and winter clothes will not have to be discarded for the old summer garments.

Japanese Circus Girl Says Maids Of Atlanta Should Know Jiu Jitsu

1—Thing seizes girl by throat. 2—Girl breaks the hold. 3—Girl applies leverage with hip as fulcrum. 4—After the fall the enemy is at her mercy.

Miss Ai Kashi, Weight 110, With Barnum & Bailey's Circus, Can Take Care of Herself With Jitsu Stuff Just Any Old Place

"All Atlanta girls should know some of the principles of Jiu Jitsu. By a little practice they can learn to overcome or disable almost any man that attacks them."

So says little Miss Ai Kashi, a 110-pound Japanese girl, who will be seen here Monday, October 27, with the Barnum & Bailey circus when it pitches camp at Ponce de Leon park. Miss Kashi is one of the Mikado's royal troupe of champion wrestlers and Jiu Jitsu experts, one of the many new features the circus promises to offer. Recently she posed with Tamaki, one of the male members of the troupe, to illustrate some of the slinger, holds and tricks of the ancient Japanese art. Miss Kashi is only four feet eight inches tall and weighs but 110 pounds, but she can throw a man twice her weight. She is one of the few women experts in Jiu Jitsu. But as she explains through an interpreter, "an American girl would not have to be an expert to make herself safe from the ordinary attack of the street rowdy or to punish an offensive member."

The pictures show how the American girl can overpower a ruffian who attacks her in the street and tries to throttle her. The thing, posed by Tamaki, has seized the girl by the throat with both hands, his thumb pressing on her windpipe in an effort to choke off her screams. The girl is pressed backward by the force of the attack and would appear to be in a bad way. To break his hold she places the palms of her hands together and thrusts her arms up quickly and with force between the thumb and forefinger. The power of leverage thus obtained is sufficient to force his hands from her throat no matter how much more powerful the man may be. The sudden shift in position makes

the thing lose his balance slightly and lean forward. Then, as in picture three, the girl quickly grasps the man's right wrist in her left hand and pulls his arm downward. At the same time she throws her body swiftly around to the right. The downward pull on the thing's right arm combined with the lifting pressure at the waist is sufficient to send him headlong over the girl's right hip to his back and she has seized his left wrist and is press-

ing sharply downward upon it, using her left knee as the fulcrum for the lever. A few pounds of pressure in this position will break any man's arm. Of course practice is essential until the girl can make all the motions swiftly and surely, as any hesitation or pause in the trick will give the thing time to make some defensive movement. But knowing the proper tricks of Jiu Jitsu and having practiced with Brother Tom or some other kind volunteer, the girl is equipped to furnish any thug with a first-class surprise party.

GILBERT SPEAKS TO CURRENCY COMMITTEE

New York Banker Says Currency Bill's Details Have Not Been Worked Out

(By Associated Press.) WASHINGTON, Oct. 22.—Alexander Gilbert, president of the Market and Pulton National Bank of New York, while testifying before the committee of the administration currency bill, told the senate banking committee today that the details had not been fully worked out. Senator Hitchcock had pointed out that it provided for the appointment of a receiver for any federal reserve bank which might violate the law.

"In the event of the appointment of a receiver and the bank's closing, its funds and funds of perhaps thousands of banks throughout the district covered by the reserve bank, would be tied up by the receiver. What would be the result?"

"Disaster would be general," replied Mr. Gilbert, "and this point emphasizes the fact that you gentlemen should not hasten consideration of this bill."

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Sage Tea and Sulphur Darkens so Naturally that Nobody can tell.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and luster to the hair when faded, streaked or gray; also ends dandruff, itching scalp, and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wright's Sage and Sulphur Hair Remedy," you will get a large bottle, this amount of recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, after another application of two, your hair becomes beautiful, dark, thick and glossy.—(Adv.)

HEAVY MEAT EATERS HAVE SLOW KIDNEYS

Eat less meat if you feel Back-
ache or have Bladder
trouble

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms acids which excite the kidneys, they become overworked, from the strain, old stuff is left to fester in the waste and poisons from the blood gradually enter the system. Nearly all rheumatism, headache, backache, indigestion, nervousness, sleeplessness and urinary disorders are due to this condition.

The moment you feel a dull ache in the kidneys or your back hurts or if any urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any chemist or druggist. It is a pleasant, refreshing, and a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapefruit and lemon juice, combined with lithium and has been used for generations to cleanse and stimulate the kidneys, also neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia and soda water, and is sold in every drug store. You will be astonished how clean and active and the blood pure, thereby avoiding serious kidney complications.—(Adv.)

The Fine New Stocks of This Furniture Store

Show that the homekeeper has in it another help-mate who has done much to make the fall "fixing up" of her home just what she would have it.

New furniture for the home, "be it ever so humble," or be it ever so grand (there is room in this five-story furniture store for worthy furniture at many prices).

Months before the housekeeper began to think of the fall "fixing up" we were at work on it for the many homes of Atlanta and vicinity.

To make it a success in that the housekeeper should in due time find the kind of furniture that she would want.

That she should pay for it as little as was consistent with the quality and worth that had been put into it.

Now we can say we are ready, with the accent on the whole word!

We can say that we have brought it to just this point—

the homekeeper who is planning new furniture owes it to herself to see the furniture gathered here right now.

We have listed below several sets.

They are splendid values, but not more so than others whose praises we cannot sing in this limited space. These serve as guide-posts to lead you to the greater richness you will find here.

Bedroom Sets

Ivory Enameled \$74.50 Four pieces, bed, dresser, chiffonier and dressing table.

of plain, simple lines; dainty in this soft, dull, ivory finish; ideal for the guest room, for daughter's room. Another set, ornamented a bit, is \$79.00.

Mahogany Veneer \$107.00 Four pieces, bed, dresser, chiffonier and dressing table. Splendidly finished; of fine lines. The dresser and chiffonier and dressing table have heavy mirrors. The dressing table shows the cane work in back.

An Adam Set \$282.00 Four pieces, bed, dresser, chiffonier and dressing table—a "small set" of mahogany that seems made for some cozy apartment. The bed has the cane work in head piece.

An Adam Set \$940.00 Four pieces, bed, dresser, chiffonier and dressing table of antique mahogany. The bed has the cane work in head piece.

any; rich with the carvings that the Adam brothers were masters of. Cane panels in bed. Panel mirrors in dresser and dressing table.

Dining Room Sets

Imitation Mahogany \$125.00 48-inch table; sideboard; three center, two side drawers and two compartments, serving table and china closet. A set of more worth than price. Splendidly finished.

An Adam Set \$297.50 54-inch table, sideboard, china closet and serving table. The tops of all the pieces are solid mahogany, ornamented with neat carvings. Chairs to match are \$11.00 each.

An Adam Set \$528.00 54-inch table (10 ft. extension), sideboard, china closet and serving table; solid mahogany; antique finish. The carvings are exquisite and truly ornamental.

Indeed, there is much to be seen here right now—new Colonial and Chippendale and Sheraton Dining Room Sets, new Colonial Bedroom Sets, true in line and ornament to their periods—and all marked at prices evidently fair.

An interesting display in the furniture store window of the C.-J.-DuB. Best Mattress as it is before and after it is finished.

It will prove a fine lesson to those who give a thought to the mattress they sleep on—and in this day and time, when people are insisting on everything being sanitary, the number of people who think of their mattress is large and growing larger.

This display shows the pure, fluffy quality and the quantity of the staple cotton that goes into the C.-J.-DuB. Best Mattress. It is more convincing than pages of written advertising.

Here you see the mattress before it is compressed into the ticking.

It stands some thirty inches high—layer on layer of pure, sanitary, staple cotton—making the C.-J.-DuB. Best Mattress indeed the best cotton mattress.

This same filling is used in all our mattresses from \$17.50 to \$22.50—\$17.50 covered with art ticking; \$22.50 covered with Irish linen.

It is worthy of note that we sell no mattresses from stock. Every one is made to order.

We may tell the many details of our experiences in selecting suits, our care, our eagerness to get the right styles, the makers we go to and all that, but the whole question is summed up in the fact that

Women seem to like the suits we are showing.

Some are kind enough to tell us they are the smartest in town, and numbers are proving that they think so by their purchases.

The privilege we seek is to show **you**, not to tell you here what this style is and that fabric is—no word pictures—but the suits as they **are**, how they look on you, how they fit, how they are fashioned, what the materials and the trimmings.

These are the to-be-seen-to-be appreciated things—and these are the days, too.

The "Becomingest" Hats Here in Atlanta are From Estelle Mershon

If it were necessary to offer any other proof of the fact than that which a trip to the Millinery Section gives, we would say that the very fact that these hats are fresh from America's style center, which in turn is very, very close, nowadays, to the world's style center.

Indeed, Estelle Mershon, 20 East Forty-sixth street, New York, is a Paris shop transplanted.

We receive hats from Estelle Mershon almost daily, to the end that the women of Atlanta may choose from styles that are absolutely authentic, superlatively smart—we say this, although usually we are not given to the practice of using "ests" and "mosts" in our advertising.

Nothing else will do, when we get on this hat question.

HAPPENINGS IN LONDONTOWN

By the Countess of Blakenheim.

LONDON, Oct. 21.—Save in the queen's own household, there are no restrictions at Balmoral in regard to smoking. It is a jolly room, with bright chintzes and gay walls, the table laden with family photographs (mostly amateur). The view over majestic blue hills, where the gorse blazes in a stand one; the room was selected by the present owner because of this. The queen is fond of plenty of light and color in her private rooms, and does not favor the sombre browns and greens beloved by the staid. She can never see why showing rich colors should not be artistic. "You may smoke," the queen will often say to her visitors after tea in this jolly boudoir, but, unless the permission is given, even the king would not think of lighting up.

Prince Albert is the life and soul of Balmoral. A thoroughly normal and human boy, he does not know the meaning of shyness. He is very fond of people in on his terms, and his friends now staying at Balmoral usually making the journey on his private motor, and he never hesitates to take out the motor or carriage without special permission to do so, and he will say to his boys, "Go and get a good exercise for you."

Of course, the prince of Wales has his own car, but this is a privilege not likely to fall for some time yet to his younger brothers.

Prince Albert has always been something of a musical genius, and a pianist of no mean order. He reads music well from sight, and plays off most of the amusing little pieces in the musical comedy pieces now running. He is not nearly such a good shot as the prince of Wales, but then he is not half so keen on sport as his brother.

Everybody knows the queen of England possesses the finest collection of carriages in the world. To many of these treasures there are fascinating stories. One pair, which she presented to her husband, the prince of Wales, on a birthday, came to Queen Mary through the fact that the late Duke of Teck, the prince's father-in-law, had been a very good driver.

One day when she was visiting a little invalid boy, he admired the carriages, and she took them out to give him to play with. The boy, who was a very good driver, as time went on, he began to recover from his illness, and the prince and princess were returned to the princess.

When the queen canvassed was so dangerously ill some time ago, it occurred to Queen Mary that the mascot carriages might accomplish the same cure they had done over a hundred years before, and she ordered the carriages to be returned to the princess.

The queen is said to be counting the hours until the prince of Wales returns. This will be about the middle of the month. The prince has been in his away, and were it not for his letters her majesty would be dull. He writes, dutifully, each day somewhat old-fashioned and pleasant letters, telling everything—how he has been improved here, how kind his mother has been, but never a word about girls. The story goes that when the prince was at school, the king after reading one of his sons' letters, put it down, saying, "I am tired of the subject."

The prince's handwriting resembles King Edward's when he was a boy. But this is no accident. His royal highness has a great admiration for his grandfather and this is one of the things he has tried to imitate him in.

Prince Joachim is having touring Scotland, and as everyone knows, during the months of July and August, but little letters of his visit to Egypt in the spring of the year are only looking out of the month. The prince has been in his school, but never a word about girls. Mrs. May wore a handsome gown of black chiffon and a pink choker combined with crepe de Chine and embroidered in pink and gold beads.

Music, art and literature are under a stimulating influence.

The stars are forbidding during the evening hours, when it will be most fortunate to seek aid or to ask favors. It is predicted that the use of optimism and other narcotics will attract public attention to such an extent that reform measures will be started. Scandals are foreboded among men and women of prominence.

OUR ASTROLOGER

"The Stars incline, but do not compel."

WEDNESDAY, Oct. 22, 1913.

Unedea, fate in this day's scale may make use either of or fail.

Those who read the stars find this an uncertain day. Early in the morning Saturn is faintly favorable in aspect and later Mercury rises strongly for good.

The rule is fairly promising for all who are concerned with affairs connected with real estate or land. Minors, Jovians, Coris and others who die to the earth should benefit.

There is a lucky omen for the beginning of business and for the making of repairs.

According to the planets the affairs of the San Francisco exposition will prosper during the next year, but sensational incidents will develop in connection with the enterprise. There is a sign read as indicating local as well as national and international changes.

Today's aspect favors the attainment of positions of trust. Progress may be slow in a position taken on this date, but it is likely to be steady and certain to continue to the end.

Mercury is in a place believed to be particularly helpful to all who are engaged in educational work. Professors and teachers should benefit today.

While this configuration prevails minor commercial undertakings are supposed to be conducted with great success.

Music, art and literature are under a stimulating influence.

The stars are forbidding during the evening hours, when it will be most fortunate to seek aid or to ask favors. It is predicted that the use of optimism and other narcotics will attract public attention to such an extent that reform measures will be started. Scandals are foreboded among men and women of prominence.

Persons who in a place which bodes accidents and shipwrecks at sea. Neptune whose birthday it is, is likely to have a year of visitations. Both men and women will have financial troubles. Those who are employed will encounter difficulties, which are foreboded among men and women of prominence.

Children born on this day may be rash and impetuous in nature. Boys may be inclined to engage in chimerical enterprises. Girls have an ominous warning to be careful in choosing a husband. (Copyright, 1912, by the McClure Newspaper Syndicate.)

ON EVE OF MARRIAGE

MISS WILSON SPEAKS

Does Not Interfere With Her Charitable Campaign

(By Associated Press.)

NEW YORK, Oct. 22.—Although engaged to be married next month, Miss Jessie Wilson, the president's youngest daughter, has found time to help the Young Women's Christian association in its campaign to be formally begun soon to raise \$100,000 within two weeks.

At the home of Mrs. William Straight at Westbury, Long Island, yesterday afternoon, Miss Wilson declared neither her wedding cake nor wedding cake concerned her enough to interfere with her interest in the welfare of needy girls.

A large audience from all parts of Long Island listened to her vigorous appeal for aid. "If we think of the difficulty we shall fail," she said. "We must strike right out from the shoulder—we must do a hundred per cent of the job or none."

Mercury is in a place believed to be particularly helpful to all who are engaged in educational work. Professors and teachers should benefit today.

While this configuration prevails minor commercial undertakings are supposed to be conducted with great success.
